As a software engineer specializing in backend development with Python, I am dedicated to creating efficient and scalable solutions that meet the needs of modern businesses. With a deep understanding of software design principles and a passion for keeping up with the latest trends and technologies, I am always seeking out new challenges and opportunities to grow and improve. Currently pursuing a master's in computer science from Stockholm University, I am constantly expanding my knowledge and skills to better serve my clients and colleagues. Whether working on large-scale enterprise applications or small, specialized tools, I bring a strong focus on quality and attention to detail to every project.

## WORK EXPERIENCE
